Check out the webpage of the specific site you intend to go to or call the land management office to find out what facilities exist and are open.

Use existing facilities if open, but bring your own toilet paper and hand sanitizer as many locations may not be stocked.

If facilities are not available, make sure you are 200 feet (70 big steps) from water, campsites and trails for urine; for poop, pack out your waste by using a human waste pack out kit such as a WAG bag.

Pack out ALL wipes and sanitary products as well as any trash.
